Charming heritage property built in the 1870s, with income potential. With a total of 17 rooms, this home offers ample space for the entire family. The current owners have put lots of work into the property to turn it into a worry-free, ready-move-in home; new plumbing, electrical, ensuite, laundry room, and more. Occupying a corner lot, the property benefits from a private paved courtyard with pergola & mature trees. Making your way in from the courtyard, you will find yourself in the mudroom, which connects to the kitchen and laundry room. The kitchen features sturdy, wooden cabinets with maple countertops and stainless steel appliances, and overlooks the dining room and den. This space is accented by skylights, large south-facing windows and a wood-burning fireplace. The adjacent living room is the perfect space to enjoy evenings enjoying the warmth of the propane fireplace. The main floor of this home also features a hidden powder room, an office, an enclosed front porch and the primary bedroom, which is the most grandiose room in the house, with its 10-foot architectural ceiling, built-in wardrobes and new ensuite addition. The second level further impresses with an additional kitchen and full bathroom,
